Subject: Net Metering

Deborah, I don't know if I'm too late regarding net metering, but I design houses for a living and I feel strongly that net metering should be a option in SC. I tried to upgrade many things in my home to make it more energy efficient. I dream of being able to live off the grid some day. I often design and encourage clients to be progressive and think green in their projects.

Please know that I feel it is a very progressive step in getting net metering as an option in SC. I hope it comes to pass.

Sincerely, Chip Radford
